

Enterprise Analysis Corporation Announces Executive Transitions

Stamford, Conn., December 6, 2019 - Enterprise Analysis Corporation (EAC) announces the appointment of Troy Galloway as President of the company as of January 1, 2020, and the promotion of Michelle Keane to Vice President, Operations.

Ms. Galloway brings to the role an extensive background in the in vitro diagnostics industry across multiple markets and disciplines. Ms. Galloway joined EAC as Senior Consultant in January 2016. Prior to EAC, she was the head of North America Marketing for Beckman Coulter Diagnostics, a division of Danaher. Over her career, she held global leadership positions in strategic marketing and product commercialization for Siemens and BD.

As a 20 year veteran of EAC, Ms. Keane is uniquely positioned to oversee projects and manage business operations, ensuring the highest levels of quality and responsiveness to our clients. Ms. Keane will also manage our global team of consultants, analysts, and partners in the US, Europe, Asia, and South America.

EAC's current President, Susan Farber, has announced her retirement effective December 31, 2019 after more than 22 years of leadership, and will assume the role of Senior Industry Advisor. Similarly, Gerard Conti, who is retiring as Vice President, Strategy, after 14 years, has also accepted an appointment as Senior Industry Advisor. Mark Hughes, Vice President, Technology, will take on the additional role for Strategy.

Emery Stephans, EAC's CEO, stated that *"As a 30+ year company dedicated to bridging clinical medicine and diagnostic science, these appointments ensure we can continue to serve our clients across geographies, disciplines, and functions. We strive to provide critical strategic and tactical consulting, especially in the area of commercialization of new technologies, in order to help companies in diagnostics make robust business decisions. I am very grateful to Ms. Farber and Mr. Conti for their many years of service, which has enabled EAC to develop into the company it is today."*
